Executive Summary

The Q3 Marketing Performance Dashboard highlights the effectiveness of Tech Savvy Solutions' digital marketing campaigns. Total revenue reached **₦68.77 million**, with an average ROI of **471.03%**, while the Referral Program delivered the highest campaign ROI and Paid Ads generated the most revenue. Although the business achieved strong overall profitability, monthly revenue declined after July, indicating the need to optimize campaign strategies for the next quarter. These insights provide management with clear, data-driven recommendations to improve future marketing performance.
